

Cellular Automata

- Abrie Greeff
- Project 3
- 24 March 2006

Introduction

- Purpose of project
- What is a Cellular Automata?
- Proposed Algorithm

Dependant CA

- Definitions
- Formula
- Visualization

Robot Path Planning

- Definition file
- 5 States
- First iteration
- Moore neighbourhood
- Manhattan distance
- Flooding
- Robot traversal

Conclusion

- Problems
- Differences between systems
